Thanks Simma, I think that's a great suggestion. We have an assumption briefing with Jeaneanne in 3 minutes, and I'll check with the R4 attorneys at that time to see if they have any other thoughts before I submit this.

I spoke with my contact with OP who indicated that we should provide our best argument as concisely as possible in a comment bubble within the document in response to the OFR comment. It may not be realistic to quickly draft an argument that would compel OFR to see it our way, but if anyone has any suggestions of language to send back I would

welcome it. I also welcome any other suggestions from those of you that may have experience working with OFR. My sense is we may need help from Dave/David/Mary to work with/through Brittany to resolve the issue with OFR. Tom

Just to be understand, is this the OFR or epa's office that is also called the OFR? On call with John G. Right now. He suggests we need to push back as we don't have time to reformat and resign and publish by the 16th. We covered this with Brittany Bolen's office that this is

I didn't see that comment. I see redlined "Notice and request for comments." Am I missing something?

Hi Tom

Please review the attached OFR Word file with edits to your document. Upon your review, if you agree with their edits, please reply by noting that the changes are "approved." If you have any concerns, please use the comment feature in the OFR Word file.

Do not use the "accept" nor "reject" feature for any of the changes, please leave the redline/strikeout if it's apparent in the OFR Word file.

Thanks,

Martin V. Franks
